MEMORANDUM FOR THE RECORD

PL (Aka Record)

STAT 1. [redacted] called late today and said we needed by noon Friday information for use in responding to a House Appropriations Committee request for data on why SECOM should not lose the two additional positions in STAT the FY 85 budget. [redacted] said that this information was needed for the committee's discussions on the bill.

2. I called her back and gave her a brief summary of the decisions the policy level support for the establishment of SECOM's Unauthorized Disclosure Analysis Center (UDAC). I first summarized the D/ICS's 30 May letter to Judge Webster advising of the decision to establish UDAC and asking for detail of a STAT senior FBI agent to staff it. I told [redacted] that the second position would be for the secretary to support the FBI agent. I advised her of Judge Webster's positive reply in his July 5 letter to D/ICS. Thirdly, I told her that at the 21-22 September NFIB Offsite Conference Mr. Casey had announced the establishment of this center and stated its purpose. I summarized that statement of purpose from the memo on route to Mr. Casey for use in tasking STAT NFIB members to report leaks to SECOM. Lastly, I stressed Mr. Casey's personal interest in and support for this project and suggested that Miss [redacted] contact Miss Page if she wanted confirmation of DCI involvement. Miss [redacted] said that what I had given her seemed sufficient for her purpose and she would see that it was relayed to appropriate authorities.
